NEWS

- **It's that time of year again!** CVU is carrying on the tradition of Poetry Out Loud and we want you to join us. If memorizing and reciting poetry and potentially winning a cash prize and a chance to go to Washington DC sounds good to you, come to the CVU Poetry Out Loud info meeting. The meeting will be at 3 pm after school on 1/17 in room 107. We'd love to see you there! Any questions? Please come see Fonge in the Nichols Fishbowl."
- **On Sunday, 1/20, CVU's Principles of Business class will host the 11th Annual Family Formal.** The Family Formal is a dance for children and their families. This event allows children to get dressed up, attend a function with important adults in their lives, and help make a wish come true for a child living with a life threatening illness in our community. The dance will be held in the CVU Cafeteria from 4:30-7:30 pm. Tickets will be sold for \$22 per adult, \$6 per child. The class goal is to raise \$5,000. All proceeds will be donated to the Make-a-Wish Foundation of Vermont to sponsor the wish of a child from Chittenden County. This is a great opportunity to spend time with your family, support a great cause, and have fun! We have food, a photo booth, games/activities, and a silent auction. This year ordering tickets is easier...and online. Visit this link to reserve your tickets today: <https://www.ticketsource.us/cvufamilyformal>

WORD OF THE DAY: Syllogism

1. A deductive scheme of a formal argument consisting of a major and a minor premise and a conclusion.
2. A subtle, special, or crafty argument.
3. Deductive reasoning

For those trained in formal argument, the syllogism is a classical form of [deduction](#), specifically an argument consisting of a major and a minor premise and a conclusion. One example is the inference that "kindness is praiseworthy" from the premises "every virtue is praiseworthy" and "kindness is a virtue." *Syllogism* came to English through Anglo-French from Latin *sylogismus*, which in turn can be traced back to the Greek verb *sylogizesthai*, meaning "to infer." In Greek *logizesthai* means "to calculate" and derives from *logos*, meaning "word" or "reckoning." *Syl-*comes from *syn-*, meaning "with" or "together."
