WORD OF THE DAY: Taradiddle

1. A trivial or childish lie: fib
2. Pretentious nonsense

The true origin of *taradiddle* is unknown, but that doesn't mean you won't encounter a lot of [balderdash](#) about its history. Some folks try to connect it to the verb *diddle* (one meaning of which is "to swindle or cheat"), but that connection hasn't been proven and may turn out to be [poppycock](#). You may even hear some [tommyrot](#) about this particular sense of *diddle* coming from the Old English verb *didrian*, which meant "to deceive," but that couldn't be true unless *didrian* was somehow suddenly revived after eight or nine centuries of disuse. No one even knows when *taradiddle* was first used. It must have been before it showed up in a 1796 dictionary of colloquial speech (where it was defined as a synonym of *fib*), but if we claimed we knew who said it first, and when, we'd be dishing out pure [applesauce](#).
