WORD OF THE DAY: **By and large**

On the whole: in general

By and large is originally a sailing term meaning "alternately close-[hauled](#) and not close-hauled." A ship that is sailing "close-hauled" is sailing as directly into the wind as possible (typically within about 45 degrees of the wind). The *by* part of the phrase means "close-hauled." (This *by* also appears in the term *full and by*, meaning "sailing with all sails full and as close to the wind as possible.") *Large*, by contrast, refers to a point of sail in which the wind is hitting the boat "[abaft](#) the beam," or behind the boat's widest point. A 1669 example of a variant spelling of *by and large* gives us a sense of the range implied: "Thus you see the ship handled in fair weather and foul, by and learge" (S. Sturmy, *Mariners Magazine*). The suggestion of a wide range carries over into the term's "in general" sense.

Examples of **BY AND LARGE**

"Studies have shown that, *by and large*, when hospitals lose financial resources, they make cuts that could harm some patients."

— **Austin Frakt**, *The New York Times*, 29 Aug. 2018

"The action is, *by and large*, wordless (a TV set provides the occasional scrolling quote), with amplified sound and Carberry's playing of prepared instruments adding atmosphere."

— **Thom Dibdin**, *The Stage* (London), 9 Aug. 2018
