WORD OF THE DAY: Millefleur

Having an all over pattern of small flowers and plants

Millefleur (which can also be spelled *millefleurs*) came directly from French into English in the 17th century as a word for a perfume distilled from several different kinds of flowers. The literal meaning of *mille fleurs* in French is "a thousand flowers," so it is easy to see how *millefleur* came to be applied to patterns or backgrounds of many tiny flowers or plants. A similarly colorful extension of "a thousand flowers" can be seen in the word *millefiori*. That term, which refers to ornamental glass characterized by multicolored flower-like designs, comes from *mille fiori*, the Italian phrase meaning "a thousand flowers."
