WORD OF THE DAY: BOONDOGGLE

1. **A braided cord worn by Boy Scouts as a neckerchief slide, hatband, or ornament**
2. **A wasteful or impractical project or activity often involving graft**

When *boondoggle* popped up in the early 1900s, lots of people tried to explain where the word came from. One theory traced it to an [Ozarkian](#) word for "gadget," while another related it to the [Tagalog](#) word that gave us *boondocks*. Another hypothesis suggested that *boondoggle* came from the name of leather toys Daniel Boone supposedly made for his dog. But the only theory that is supported by evidence is much simpler. In the 1920s, Robert Link, a scoutmaster for the Boy Scouts of America, apparently coined the word to name the braided leather cords made and worn by scouts. The word came to prominence when such a boondoggle was presented to the Prince of Wales at the 1929 World Jamboree, and it's been with us ever since.
